

Fortune 500 Financial Services Company Moves Forward with Infolinx WEB 2.4

Fortune 500 financial services company headquartered in the U.S. initiates procurement of [Infolinx WEB](#) version 2.4 for the tracking of its paper-based legal files.

(Vocus) October 6, 2009 -- Today, Infolinx System Solutions, a leading provider of enterprise physical records management software, announced the sale of [Infolinx WEB](#) version 2.4, to a Fortune 500 financial services provider. Production installation of the solution is scheduled for Q4 of this year.

Numerous improvements to the 2.4 user interface and security model, along with the seamless integration of various optional modules including Gen II [RFID](#) integration, space management, multi-tiered retention and legal hold functionality, and advanced support for overdue and missing items, has once again raised the bar for physical records management applications.

"This is a state-of-the-art solution for an important industry leader" said Tim Butler, Infolinx Managing Director. "We're pleased that they have given us the opportunity to once again demonstrate our unique combination of technical know-how, records management expertise, and responsive customer service."

[Organizations](#) across North America and Europe, requiring contemporary, technology-rich physical records management solutions, continue to realize immediate and meaningful return-on-investment from the implementation of Infolinx WEB.
